Thursday 8th November

10.00am until 12.00pm, 2.00pm until 4.00pm

Shaping Inspirational Learning

As with all the schools in The Mead Academy Trust, River Mead School aims to create a school culture that supports inspired teaching, effective learning, respectful relationships and high expectations of learning behaviours.

Exceptional early years education is at the heart of our ethos in developing happy, confident learners who thrive and succeed during their first years at school. We understand that children learn best when learning is exciting, meaningful and challenging and that they are entitled to well-planned and innovative experiences that are set in relevant contexts. We encourage the children at River Mead School to share their fascinations and interests with us as it is from these that we get our best inspiration. Children in the early years have opportunities to play, explore, be active, be creative and "Children play happy and learn safely"

(Ofsted 2016).

At River Mead School we are proud of our significant improvement journey. If you would like to find out more about the irresistible experiences we can provide for your child, our dedicated and enthusiastic team of staff and children would be delighted to welcome you to one of our open days.
